Bengaluru, Karnataka 📞 +91-9538118708 ✉ pruthvi.r0006@gmail.com 🔗 LinkedIn 🐙 GitHub 🌐 Portfolio

Professional Summary

Full-Stack Developer specializing in **Python, Flask/FastAPI, and AI-powered systems**, with hands-on experience building scalable web applications and Retrieval-Augmented Generation (RAG) pipelines. Proven ability to design secure REST APIs, optimize backend performance, and integrate LLM-based features into real-world products. Passionate about building intelligent, user-centric applications.

Technical Skills

Languages: Python, JavaScript, SQL

Backend: Flask, FastAPI, REST API Design, JWT Authentication, OOP

Frontend: HTML5, CSS3, JavaScript (ES6+), Bootstrap, Jinja2

Databases: MySQL, SQLite, Relational Database Design

AI & Tools: FAISS, Sentence-Transformers, Google Gemini API, RAG Pipelines

Developer Tools: Git, GitHub, Postman, VS Code, PyCharm

Concepts: API Integration, Authentication Systems, Debugging, Performance Optimization, Agile/Scrum

Professional Experience

Python Full Stack Intern

Feb 2025 – May 2025

PyGenicArc (Remote)

- Improved API response time by **35%** by optimizing SQL queries and restructuring backend logic
- Developed secure REST APIs with **JWT and session-based authentication**
- Built and integrated responsive frontend components with backend services
- Reduced production issues by **30%** through debugging and performance fixes
- Collaborated in Agile sprints, contributing to feature delivery and code reviews

Projects

AI-Powered PDF Intelligence Tool (RAG System) | *Python, FastAPI, FAISS, Sentence-Transformers, Gemini API*

- Built a full-stack **RAG-based application** enabling semantic search across multiple PDFs
- Implemented **FAISS vector search** for efficient and accurate context retrieval
- Designed a **multi-LLM architecture** supporting Gemini, Groq, and OpenRouter
- Improved answer reliability by linking responses to **source citations (page-level)**

ChibiBytes – AI Content Discovery Platform | *Python, Flask, SQLite, JavaScript, Gemini API*

- Developed a full-stack platform with **authentication, watchlists, and AI recommendations**
- Integrated **LLM-powered recommendation engine** based on user preferences
- Architected modular backend using Flask Blueprints for scalability
- Built dynamic frontend using asynchronous API calls

DailyDrop – E-Commerce Platform | *Python, Flask, SQLite, Bootstrap, JavaScript*

- Built complete e-commerce system with **cart, checkout, and order history**
- Designed relational database schema for users, products, and orders
- Developed **admin dashboard** for managing products and users
- Implemented secure authentication and session workflows

Education

Master of Computer Applications (MCA)

2025 – 2027

Jain Online University, Bengaluru

Bachelor of Computer Applications (BCA)

Graduated

Bits Hi-Tech College, Chitradurga

CGPA: 8.07/10

Certifications

Meta Full-Stack Developer Specialization – Coursera (2025)

Python Essentials 1 – Cisco Networking Academy (2026)
